(3) "Occasional case" shall mean no more than two cases per year.

(4) "Support personnel" shall mean any person employed by a licensed veterinarian who assists a licensed veterinarian in the practice of veterinary medicine.

(5) A "veterinarian/client/patient relationship" exists when all of the following conditions have been met:

(a) the veterinarian has assumed the responsibility for making clinical judgments regarding the health of the animal(s) and the need for medical treatment, and the client has agreed to follow the veterinarian's instructions;

(b) the veterinarian has sufficient knowledge of the animal(s) to initiate at least a general or preliminary diagnosis of the medical condition of the animal(s). Rule 24.225.404 reserved

24.225.405 SUPPORT PERSONNEL (1) Support personnel shall work under the supervision of a veterinarian licensed and residing in Montana, who is responsible for the services performed by the support personnel. Support personnel shall not diagnose, initiate treatment, perform surgery, prescribe medicine, prognosticate or accept a direct fee for services rendered as support personnel. Support personnel may only administer anesthesia when the supervising veterinarian is physically present.

(2) The supervising veterinarian is responsible for determining the competency of the support personnel to perform animal health care tasks delegated to the support personnel. In addition, the supervising veterinarian shall be responsible for making all decisions relative to the diagnosis, treatment, management and future disposition of the animal patient.

(a) When the supervising veterinarian is on the premises, the veterinarian shall examine the animal patient before delegating any tasks to support personnel;

(b) When the supervising veterinarian is not on the premises, the veterinarian must instruct support personnel by radio or telephone as to the appropriate action to take. These instructions are to be recorded in writing by the support personnel in the animal patient's file and initialed and dated by the supervising veterinarian within 24 hours.

(3) A veterinary support person may, under the general authority and at the responsibility of his/her veterinary employer, render emergency care to a patient without direct authorization when it would appear that to delay treatment and care for the time necessary to send the animal to another practitioner would be life threatening. Such care may be rendered only after reasonable efforts have been made to contact the employing veterinarian or another veterinarian who could manage the case within allowable time constraints. (History: 37-18-202, MCA; IMP, 37-18-104, MCA; NEW, 1998 MAR p. 464, Eff. 2/13/98; TRANS, from Commerce, 2005 MAR p. 323.)

24.225.410 RECORD KEEPING STANDARDS (1) The required standards of practice of veterinary medical record keeping are as follows:

(a) Patient medical records, either written or electronic, shall be maintained for every animal accepted and treated as an individual patient by a veterinarian, and for every animal group (e.g., herd, litter, flock) treated by a veterinarian. These records shall be maintained and stored in an orderly manner lending itself to retrieval.

(b) When appropriate, licensees may substitute the words "herd," "flock" or other collective term in place of the word "patient" of this section. Records to be maintained on these animals may be kept in a daily log, or the billing records, provided that the treatment information that is entered is adequate to substantiate the identification of these animals and the medical care provided. In no case does this eliminate the requirement to maintain drug records as specified by state and federal law and board rules.

(c) The following data shall be clearly noted:

(i) name, address and phone number of owner or agent;

(ii) description, sex (if readily determinable), breed and age of or description of group;

(iii) date animal or group was seen, admitted, discharged;

(iv) results of examination, condition, diagnoses suspected;

(v) all medication, treatment, prescriptions or prophylaxis given, including amount and frequency for both inpatient and outpatient care;

(vi) diagnostic and laboratory tests or techniques utilized, and results of each.

(d) Veterinarians who practice with other veterinarians shall indicate by recognizable means on each patient's or animal group's medical record any treatment he/she has performed, or which he/she has directed support personnel to perform.

(e) All radiographs shall be permanently labeled to identify the veterinarian or premise, the patient, the owner, the date and anatomical orientation.

(f) Medical records of both individual and group patients shall be maintained for a minimum of three years after the last visit.

(g) Consent forms, if used, should be part of the medical record. (History: 37-1-131, 37-1-319, 37-18-202, MCA; IMP, 37-1-131, 37-1-316, 37-1-319, MCA; NEW, 1999 MAR p. 1509, Eff. 7/2/99; TRANS, from Commerce, 2005 MAR p. 323.)

(History: 37-1-131, 37-18-202, 75-10-1006, MCA; IMP, 75-10-1006, MCA; NEW, 1994 MAR p. 1993, Eff. 7/22/94; TRANS, from Commerce, 2005 MAR p. 323; AMD, 2008 MAR p. 633, Eff. 4/11/08.)

(a) office and reception area, practice vehicle, small and large animal exam room, housing and surgery areas, waste disposal, insect control, grounds and odor;

(b) the board may add or delete in these inspection items as conditions and problems change.

(3) Inspections and sanitation check reports shall be supplied to each licensed veterinarian who has been inspected, with the board's recommendations.

(4) The board shall allow adequate time for their recommendations to be implemented by the licensed veterinarian.

(5) Should progress not be reported in removing items from the unsatisfactory category by the second inspection, the board shall direct the licensed veterinarian to appear before the board at the next meeting, or have him write a letter of explanation.

(6) If, in the opinion of the board, the licensee has not made satisfactory progress or if the explanation is unsatisfactory, it shall issue a letter of warning to the licensed veterinarian to immediately start placing his premises in a clean and sanitary condition. Failure to do so may serve as cause for initiating suspension or revocation of license provided under 37-18-311, MCA. (History: 37-18-202, MCA; IMP, 37-18-311, MCA; Eff. 12/31/72; AMD, 1980 MAR p. 1189, Eff. 4/11/80; TRANS, from Dept. of Prof. & Occup.
